R E P O R T.

TO HIS GRACE JAMES DUKE OF ABERCORN, K.G., &c., &c., &c.,
LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

Queen's University, Dublin Castle,
June 1, 1874.

May it please your Grace,

As Chancellor of the Queen's University in Ireland, it becomes my duty, in compliance with the provisions of Her Majesty's Charter, to furnish to your Grace the Report of the Condition and Progress of the University since the 1st June, 1873.

The General University Examinations during the period of this Report commenced on the 30th of September, and terminated on the 14th of October, 1873. Examinations for Degrees in the Faculty of Medicine were also held in June, 1873, and First University Examinations in Arts and Engineering were also held in January, 1874. At these various Examinations 501* Candidates presented themselves. Lists of those who were successful are annexed, and a List of the Students Matriculated in the University since the 1st of October last.

In addition to these Examinations for Members of the University, Examinations of Candidates who are not Members of the University, both Male and Female, were held in the month of June, 1873.

The principal public meeting of the University, to confer degrees and diplomas, and distribute prizes, was held in St. Patrick's

* In this number the candidates who underwent more than one distinct University Examination within the year are enumerated separately. This happened in 150 cases, so that the number of individuals examined was 351.

App. I. Hall, Dublin Castle, on the 16th of October last. An account of the proceedings is appended to this Report.

The following papers are also annexed for your Grace's information:—

App. III. The Estimate for the year.

App. IV. The Cash Account for the year.

App. V. A Return of the several Meetings of the Senate since my last Report.

I have the honour to be,

Your Grace's

Obedient and faithful Servant,

KILDARE,

Chancellor.

APPENDIX.

APPENDIX I.

Appendix.

PUBLIC MEETING of the QUEEN'S UNIVERSITY in IRELAND, held in ^{Public} Meeting.
St. Patrick's Hall, Dublin Castle, on the 16th October, 1873.

AFTER the close of the examinations of the year 1873, a public meeting of the Queen's University was held in Dublin Castle on the 16th October, 1873, for conferring degrees, diplomas, and prizes.

A large number of distinguished persons having taken their places in the Examination Hall, Sir Dominic J. Corrigan, Bart., M.P., Vice-Chancellor of the University, the Senate, the Professors and Examiners, and the Candidates, entered it in procession.

The VICE-CHANCELLOR (in the absence of the Most Honorable the Marquess of Kildare, Chancellor of the University), opened the meeting with the following address :—

LADIES AND GENTLEMEN,

We are now assembled at the end of the twenty-third academic year. During the progress of their studies the students are from time to time examined in the University. The University examinations are held three times in the year—in January, in the beginning of summer, and in autumn. The principal examinations are the autumn examinations, which have just concluded. The printed lists which have been distributed through the hall contain the names of the candidates who have been successful at the several examinations at which 474 candidates have been examined within this academical year, of which 334 have come up to the standard required by the examiners. On the present occasion the degrees and prizes which have been awarded at our principal examinations will be distributed. The University grants degrees in four faculties—in arts, law, medicine, and engineering—and it may not be without interest to the University to state the number of degrees in each faculty which have been conferred since the opening of the University. When the proceedings of the day shall be over we shall have conferred since the opening of the University the degree of Bachelor in Arts upon 795 candidates, the degree of Doctor in Medicine upon 635 candidates, the degree of Master in Surgery upon 274 candidates, the degree of Bachelor in Engineering upon 129 candidates, the degree of Bachelor in Law upon 38 candidates, and the degree of Doctor in the same faculty upon 9 candidates. These numbers are irrespective of the few *ad eundem* and honorary degrees which the University has conferred, and of the lesser distinction of diploma which it has awarded in 105 cases.

I can only glance rapidly at the successes of graduates of the Queen's University at public competitions. It is a fact which is now well known that the medical graduates of this University have held a prominent position at all public medical competitions, and that, both in the number of places they have won and the high scores they have made, they have

Appendix. maintained the credit of their University. At the competition last February, for appointments in the medical department of the Indian army, five of the 16 successful candidates were graduates of this University—Dr. Moylan, Dr. Dill, Dr. Collis, Dr. O'Brien, and Dr. Tully. In the same month the following graduates of the University were successful at the final examination at Netley for medical appointments in the navy:—Dea. Sparrow, O'Neill, Spencer, O'Donnell, Adams, Leitch, Wilson, Madders, Brown, and Pearson.

I
Public
Meeting.

It only remains for me to record, which I do with very great regret, the loss which the University has sustained through the resignation by Sir Robert Kane of his office of President of Queen's College, Cork. By ceasing to be a President of one of the Queen's Colleges, he ceased to be a member of the Convocation of the University and of its Senate, which is its governing body. Yesterday Convocation by a unanimous vote replaced him upon the roll of its members, and I am sure I only express the feelings of the University when I give utterance to my own earnest desire that the governing body of the University may not be deprived longer than is necessary of the aid which it has hitherto received from his experienced judgment.

APPENDIX II.

DEGREES, DIPLOMAS, CERTIFICATES, &c., CONFERRED IN 1873.
